

Introduction of Speakers

Duane LeVangie is Program Chief for the Water Management Program at the Massachusetts Department of Environmental Protection in the Bureau of Resource Protection's Drinking Water Program. He has been employed by MassDEP since December 1990, progressing from Regional Planner, to Acting Program Manager and eventually to Program Chief in March 1999. He has a B.S. in Geography from Salem State College with a concentration in Urban/Economic Geography.

Don Millette is General Foreman for the Wayland Water Department and a member of the Wellhead Protection Committee. He has been employed by the Department since July 2001. His duties include overseeing the operation and maintenance of the water treatment and water distribution systems. Don has been working in the drinking water and waste water fields for 15 years in both the private and public sectors.

Tom Sciacca is a retired Electrical Engineer, Alternative Energy Entrepreneur, former long-serving Conservation Commissioner, Wayland's Representative to the Sudbury, Assabet, and Concord Wild and Scenic River Stewardship Council, member of the Wellhead Protection Committee, and Project Manager of the Organic Lawn Project on the Mellen Common in the center of town. He holds an engineering degree from MIT. His career accomplishments include advances in the internet's evolution, founding a company to fight global warming featured on the Wall Street Journal's front page and award-winning product inventions.
